

## General Storage Cabinet

Illusions Mobile Case Goods / Tall Units

### Product Summary

The Fleetwood Illusions line of mobile cabinetry gives you the total flexibility that is valued by educators, with the built-in look that architects want. Illusions cabinets are built on concealed casters. They roll into place and are locked together with our patented locking system. When a room needs to be reconfigured for a different use, Illusions cabinets simply unlock from each other and roll easily to a different area of the room, or down the hall to a different room. Have a leak in the wall behind the cabinets? Illusions cabinets can be easily moved out of the way for repairs, and then moved back into place with no expense rebuilding cabinets.

### Product Details
